

Foot Suction Machine

Foot operated, Mild Steel, powder coated body, Plastic/Polycarbonate Jar, 2 x 600/750ml jar capacity, 600mm hg vacuum pressure, 80ml per stroke suction capacity by piston pump, creating vacuum instantly, weight 2.5/3 kg approx.

Noiseless Suction Machine

This is a powerful multipurpose high vacuum suction creating vacuum instantly and designed to run continuously for many hours at a stretch, fitted with stepless precision regulator and free from lubrication. This unit is completely made out of stainless steel having castors fitted with 1/4 HP Crompton motor working on 230 V.A.C.

Fumigation Machine

This Disinfectant converts liquid formaline and water to Aerosol form and rapidly dissipates to all parts of room due to vapour pressure gradients and effectively eliminates bacteria. This consumes 100W and is made out of stainless steel. Available in 5 ltr. & 1.5 ltr. Capacity.

SS Double Drum Autoclave

This double chamber unit is completely made out of stainless steel having pressed top and ring and completely argon arc welded. This is having double safety valve, pressure gauge, water level indicator, chamber drain, water inlet funnel, steam release.

Chamber size :

300mm dia x 500mm deep - 3 kw heater
400mm dia x 600mm deep - 4 kw heater

Portable Suction Machine (Inverter type)

This unit having stainless steel body fitted with 1/4 HP Crompton Motor, having double bottle with vacuum gauge, precision regulator, oil filter, air filter.

This unit creates 26" of Hg vacuum, working on 220 V.A.C. supply.

SS Single Drum Autoclave

This unit is completely made out of Stainless Steel and having pressed cover and ring. The rubber gasket and heater is easily replaceable. The inside size is 12" x 12." Fitted with pressure gauge, safety valve cum steam release and provided with drum stand, Working on 220 V.A.C. Fitted with 2 KW heater.

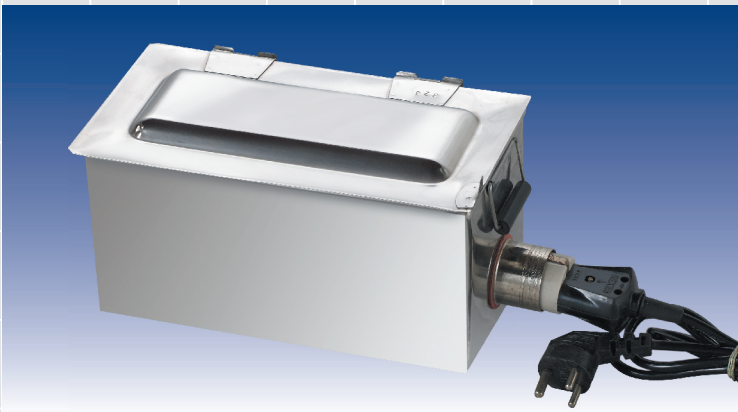

Formaline Chamber

Available in
following sizes:
8" x 4" x 4",
14" x 8" x 6",
21" x 8" x 8",
23" x 8" x 8",
26" x 8" x 8",
28" x 8" x 8",
2 Tray / 3 Tray

SS Instrument Sterilizer (Plain)

SS Instrument Sterilizer

This unit is completely made out of stainless steel & electrically operated. The instrument tray is automatically lifted when cover is opened, reliable thermostat is also provided for intermittent operation to minimize electricity consumption.

Spot Light :

- Equally useful in operation theatres and OPD.
- Non-drift with 360° rotation, with universal mounting bracket.
- Shock-proof and energy saving halogen bulbs
- Lamp/light temperature is kept at 3400 Kelvin to further enable identification of true tissue color.
- Extremely small distal output with easy-to-use focusing system.
- Can be focused from long distance on the surgery part.
